

Get With The Guidelines® Platform Updates 2020

Get With The Guidelines Module	Element Description	Logic and Rationale
Get With The Guidelines - Stroke Get With The Guidelines - AFIB Get With The Guidelines - Heart Failure Get With The Guidelines - Coronary Artery Disease	Active bacterial or viral infection at admission or during hospitalization - Seasonal cold or flu - Emerging Infectious Disease - SARS-COV-1 - SARS-COV-2 (COVID-19) - MERS - Other infectious respiratory pathogen - Bacterial infection - None/ND	Adds the ability to track whether a patient being entered into AHA's outcomes-based registry had a concurrent active viral or bacterial infection upon admission or during hospitalization for the specific disease state.
Get With The Guidelines - Stroke Get With The Guidelines - AFIB Get With The Guidelines - Heart Failure Get With The Guidelines - Coronary Artery Disease	Previous Medical History - HX of Emerging Infectious Disease - SARS-COV-1 - SARS-COV-2 (COVID-19) - MERS - Other infectious respiratory pathogen	Of the patients entered in AHA's outcome-based registry, this allows for the evaluation of outcomes of patients in the disease state who have had a previous history of an emerging infectious disease. This also allows outcomes to be compared to patients who did not have a history of an emerging infectious disease.
Get With The Guidelines - Stroke	Eligibility or Medical reason(s) documented as the cause for delay in thrombolytic administration - Added Additional Selection: $\wedge i i s^2 s \phi \sim \wedge \{ J J . p \phi \neg^3 \neg^a k g^2 k i \wedge g \phi \sim \Delta \} k i$ Cause for delay in performing mechanical endovascular reperfusion therapy documented - Added Additional Selection: $\wedge i i s^2 s \phi \sim \wedge \{ J J . p \phi \neg^3 \neg^a k g^2 k i \wedge g \phi \sim \Delta \} k i$	Of the patients entered in AHA's outcome-based registry, the addition of this reason for delay can be considered when evaluating timely administration of Thrombolytics or performing Mechanical Endovascular Intervention.

Get With The Guidelines Module	Element Description	Logic and Rationale
Get With The Guidelines - Coronary Artery Disease	Documented non-system reason for delay- PCI? - Added Additional Selection: <i>^i i s^2 s ¢ ~ ^ { J J . p ¢ ¢ ^ - ^ a k g ^ 2 k i æ g ¢ ~ À ¢ } k i</i> Non-system reason – PCI? - Added Additional Selection: <i>^i i s^2 s ¢ ~ ^ { J J . p ¢ ¢ ^ - ^ a k g ^ 2 k i æ g ¢ ~ À ¢ } k i</i> 1st ECG Non-System Reason for Delay - Added additional details to coding instructions to allow for inclusion of delays from the:
