Every \$1 invested in women's health generates about \$3 in economic growth. Closing the women's health gap will both improve lives and open the potential for a \$1 trillion uplift to the global economy by 2040.

Cardiovascular disease alone makes up more than a third of the sex and gender health gap in the United States. Acting today will, by 2040, result in:

healthier life years for women

⬆️ **\$28 billion**

boost to the U.S. economy, annually

⬆️ **\$80 billion+**
